eBook lending to Kindle

To borrow books for your Kindle, you must have an active Amazon account associated with the Kindle. Your Kindle must also be connected to Wi-Fi or physically connected to your computer via USB cord.

Because of publisher restrictions, our eBooks are only available to one patron at a time. Books that are in may be added to your cart. If it is out, the book will offer the "place a request "option.

Finding & Checking out eBooks

1. Go to CCPL's web site at www.callowaycountylibrary.org. Select the Kentucky Libraries Unbound tab and click on the OverDrive logo. You may also access the site by using the Kentucky Libraries Unbound tab located at the top of CCPL's LS2PAC page.
2. Login by using your library card number (all numbers found on the back of your library card) and your PIN.
3. Browse or search for books in the Kindle format. You can limit your search to Kindle only books by clicking on the Advanced Search under the regular search box on the left-hand column. You may also wish to limit your search to "only show titles with copies available" unless you are looking for something specific.
4. Select and add your items to your cart.
5. You must choose the Kindle version of your book.
6. Go to my cart, and "Proceed to Checkout".
7. Choose your lending period: 7, 14, 21 days. Click "Confirm Checkout".

Getting Books to Your Kindle

8. At the Download Screen, click "Get for Kindle". (To get to it later, look at" My bookshelf"
9. Your computer will automatically launch the Amazon website. Click "Get Library Book".
10. Log in to your Amazon account.
11. Your Amazon account will ask you which Kindle you'd like to send your book to. Choose the correct one and Continue.
12. Connect your Kindle to wireless. Library books cannot be transferred via 3G/Whispernet.
13. At this point, Amazon will either send your book to you via wireless or you can download it directly.

If your Kindle does not support wireless OR the book is download only

1. To download a book, Amazon gives you an option to download after the screen where you choose your Kindle.
2. Plug your Kindle into your computer. It will show up as a separate USB drive.
3. Open your Computer (In start menu). Find the Kindle drive & double click it to open. Find & double click the Kindle's documents folder.
4. Go back to the Computer and find the downloaded book on your c drive/hard drive (usually in My Downloads). Open that window and drag and drop the new book into the Documents folder of your Kindle.

Notes, Bookmarks & Highlights

Kindle compatibility with library eBooks also takes full advantage of Amazon's Whsipersync technology. If you check out the eBook again at a later date or choose to purchase the eBook form the Kindle Store, all of your notes, bookmarks, and highlights will be preserved. The last page read will also by synced between your Kindle and free Kindle reading apps.

Kindle app and iDevices

These instructions will only work sporadically with the Kindle app on an iDevice. If you have an iDevice, please see our instructions for iDevice users using an OverDrive app. (The app is much simpler to use.)

Returning a Kindle Book early

Kindle books automatically return themselves, but if you want to return a book early and get another checkout, use the following steps:

1. Log into your Amazon account
2. Go to "Your Account"
3. Find "Manage Your Kindle" under Digital Content (Scroll down) on the My Account page.
4. A list of your items purchased and lent will appear. Public Library items will have "public library" next to them.
5. Click on the Actions drop down next to the book.
6. Click Return this book.
